ISSUE 35
AUGUST 2026

The official newsletter for timeware® partners worldwide

“Welcome to the latest edition of insider.”

Are your clients looking for a smarter way to handle staff clocking in?

With timeware’s cloud-based HRMS solution, we work closely with you and your customer to make sure they get a genuinely tailored fit around time management, including complex work patterns and overtime authorisation, leave management and advanced reporting.

timeware® HRMS software

timeware® HRMS is the complete cloud-based workforce management solution, built for precision

timeware® HRMS
Human Resource Management System

and ease. It combines extensive HR functionality, leave management, time management, and overtime authorisation in one platform. timeware® HRMS seamlessly integrates with leading security systems, such as Suprema and Paxton, transforming access events directly into attendance bookings. Whether it’s tracking shifts, managing holidays, or ensuring accurate attendance from your access control, timeware® HRMS leads the industry - backed by our outstanding customer support team.

Become a Referral Partner

Your clients may be looking for a modern, cloud-

Referral Partner Programme

based workforce management system. If they need HR, time management, leave management, overtime authorisation or seamless integration with biometric and access control systems, timeware® HRMS could be the perfect fit. We work closely with every customer to deliver a tailored solution that meets their exact needs, backed by expert implementation and outstanding support. As a timeware® referral partner, you’ll receive a generous 15% referral fee on every successful sale. If you know an organisation that could benefit, we’d love to arrange a demonstration. Get in touch to learn more about our referral partner programme.
