# timeware®
workforce management software

# BambooHR Integration datasheet

## Overview

Integrating with BambooHR gives timeware® users access to a world class human resources solution that replaces the personnel module included as standard with timeware® Professional.

### BambooHR

BambooHR is all-in-one HR software made for small and medium businesses. Their software makes it easy to collect, maintain, analyse people data, improve the way you hire talent, onboard new employees, manage compensation and develop your company culture. Thanks to the single, secure employee database in BambooHR®, tracking employee records has never been easier. From standard categories like personal and payment information to as much custom data as you want, you have full control over all of your key data in one place, accessible from anywhere. BambooHR moves your HR database away from scattered spreadsheets and paper files forever, putting organised, centralised data at your fingertips whenever you need it.
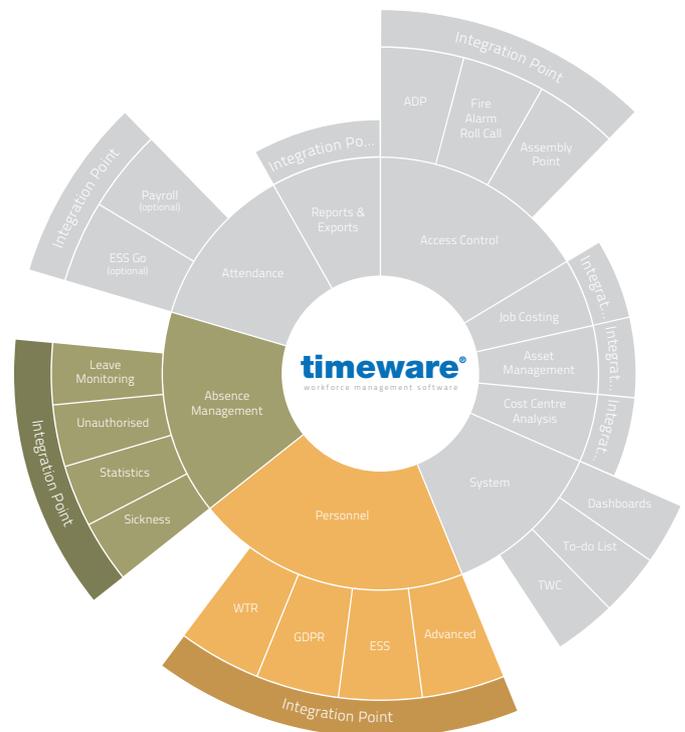

### Modern HR for a mobile workforce.

Modern HR work doesn't always happen at a desk, or even in an office. You need HR software that can keep up with your busy schedule. BambooHR have just the thing. Whether you want to look up a co-worker's phone number or approve a time-off request, the free mobile HR app gives everyone in the organisation easy access to essential BambooHR functions at all times.

### timeware®

timeware® has developed an integration that sits seamlessly between timeware® Professional and BambooHR. This integration eliminates 'duplicate entry' and allows employees and approved leave information created in BambooHR to be passed directly to timeware®. Users of BambooHR and timeware® Professional will see the two system operating seamlessly with one providing advanced HR features and the other providing robust yet flexible time management solution.

### Annual licence

The BambooHR integration is enabled by an annual licence.
